The sessions will be made up of foundation hockey skills training for the younger age groups. This will consist of drills that will emphasize power skating and edge work, puck handling, passing and shooting. This will give the young hockey players repetition with positive re-enforcement and correction as required.

The older age group sessions will consist of enhancing skating performance, puck handling, passing and shooting techniques. The foundation level has been primarily attained and we will work to refine and enhance for continued growth and evolution of the hockey player.

Look forward to seeing you at the rink!
